By Mark Goodman : Numismatic Photography, 2nd edition 15072008nbsp;numismatic photography 2nd edition has 10 ratings and reviews in this second edition of numismatic photography author mark numismatic photography reveals the secrets to quality digital coin photography through a structured systematic approach that is easy to apply simple to learn and Numismatic Photography, 2nd edition:

0 of 0 review helpful Needs to include alternate methods and techniques By G Lawrence To be sure that the book and

author are treated fairly I have taken several months to mull over what I had read before writing this review for the book Numismatic Photography 2nd Edition 2009 that I purchased as part of my research on coin photography During that time there have been a few email correspondences with the author about In this second edition of Numismatic Photography author Mark Goodman has fine tuned the secrets to quality digital coin photography through a structured systematic approach that is easy to apply simple to learn and guaranteed to produce spectacular results The chapters are divided into two parts Essentials and Advanced allowing beginning photographers to learn without being overwhelmed while still providing more advanced photographers with the information needed About the Author My journey into the world of coin photography was a slow and step wise process I collected coins as a child and like many people had a long hiatus during high school and college I started collecting again around the year 2000 A couple years
